

The FSMA Express program is powered by Iron Apple's Quality Assurance program and is designed for small carriers. This can be accessed by either mobile, tablet, and desktop, for easy and convenient FSMA compliance. Small carriers will meet all requirements under the Sanitary Transportation Rule, by implementing the FSMA Express program.

FSMA Express Program Consists Of:

- All records, written procedures, checklists necessary for FSMA compliance
- Store documents on the web for easy access
- Documents to show your broker, shipper or FDA when asked for proof / documentation
- Driver training video
- Digital training certificate, printable & shareable

* For temperature monitoring options available in the program, please contact sales@ironapple.net for more information.
